

A Time for Trumpets' Counter Errata

May 2021

German Counter Corrections

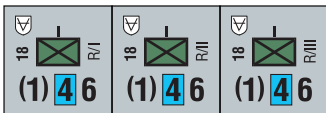

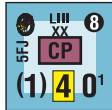

1. There is a 5FJ Division HQ with the LIII Corps parent HQ above the NATO box. The color within the NATO box is purple to reflect the LIII Corps; this counter is correct on the front side, as shown below, and is available when the 5FJ is transferred to the LIII Corps on the 21AF turn per section 105.3. The counter front (shown at left) is correct and does *not* require change.

Unfortunately, the *back* side of the counter is incorrect as it depicts a 5FJ Division CP for the 5FJ HQ subordinate to the LXXXV Corps. The corrected counter back is shown at left.

2. The following two 5FJ Division CP's were not in the original counter manifest. They are available for use at any time to allow command and control to be extended when the 5FJ Division is stretched across the south end of the map. One of the CP's is available when the 5FJ Division is subordinate to the LXXXV Corps, and the other when the 5FJ Division is subordinate to the LIII Corps. See 74.4.3d and 105.3.

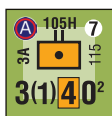

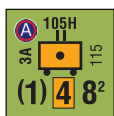

3. Three 18VG companies are missing their divisional emblem in the upper left corner on the front of the counters (the emblem does appear on the back of the counters). The three corrected counter fronts are shown at left.

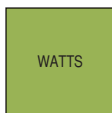

Allied Counter Corrections

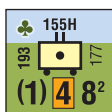

1. The US 11 Armored Division is subordinate to the US 3rd Army, as indicated by the orange color within the NATO box. However, this HQ incorrectly shows the parent HQ above the NATO box as the "1A." The "1A" above the NATO box should instead be "3A." The corrected counter, front and back, is shown at left.

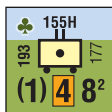

2. The 115 Field Artillery Battalion is a 3rd Army Echelon combat unit, as indicated by the orange color within the NATO box. However, the 115 FA shows the parent HQ to the left of the NATO box as the "1A." The "1A" to the left of the NATO box should instead be "3A." The corrected counter, front and back, is shown at left.

3. The nomenclature Team Pyle was correct until LTC Watts took command on 22Dec44. The Team Pyle Armored Infantry unit should be "Watts" not "Pyle." The corrected counter, front and back, with "Watts" replacing "Pyle," is shown at left.

4. The front of the 193/177 FA Bn (155H) has an incorrect MF of "7." It should be "8." The back of the counter is correct and does not require change. The corrected counter front is shown at left.

5. The front of the 4th Arm Div, 24 Arm Eng is missing the Battalion designation "II" above NATO box. The back of the counter is correct and does not require change. The corrected counter front is shown at left.

6. The abbreviation for the British 5 Guards/2 Grenadier Guard appears as "5Gds/2CGd" on the counter. The corrected counter, front and back, with the proper identification of "5Gds/2GGd," is shown at left.
